

Cell-Surface Vimentin (CSV) monoclonal antibody, clone 84-1 (PE)

Catalog # H00007431-MP08 Size 50 ug

Applications

Immunofluorescence

Immunofluorescence staining on non-fixed, non-permeabilized PANC-1 using PE conjugated Cell-Surface Vimentin (CSV) monoclonal antibody, clone 84-1 for CSV (orange) and DAPI for nucleus (blue).

Specification

Product Description	PE conjugated mouse monoclonal antibody recognizes human cell-surface vimentin (CSV).
Immunogen	Human recombinant vimentin
Host	Mouse
Reactivity	Human
Interspecies Antigen Sequence	Mouse (100); Rat (100)

Form	Liquid
Conjugation	PE
Isotype	IgG2b, kappa
Storage Buffer	In 1x PBS, pH 7.4
Storage Instruction	Store at 4°C in the dark.
Note	<p>Cell-Surface Vimentin (CSV) detecting antibody is best used before cell fixation and permeabilization. If fixation is required, please use Abnova's Special Fixative.</p> <p>Cell-Surface Vimentin (CSV) antibody is a pending MD Anderson patent which has been exclusively licensed to Abnova Corporation.</p>

Applications

- Flow Cytometry
- Immunofluorescence

Immunofluorescence staining on non-fixed, non-permeabilized PANC-1 using PE conjugated Cell-Surface Vimentin (CSV) monoclonal antibody, clone 84-1 for CSV (orange) and DAPI for nucleus (blue).

Gene Info — VIM

Entrez GenelID	7431
Gene Name	VIM
Gene Alias	FLJ36605
Gene Description	vimentin
Omim ID	193060
Gene Ontology	Hyperlink
Gene Summary	This gene encodes a member of the intermediate filament family. Intermediate filaments, along with microtubules and actin microfilaments, make up the cytoskeleton. The protein encoded by this gene is responsible for maintaining cell shape, integrity of the cytoplasm, and stabilizing cytoskeletal interactions. It is also involved in the immune response, and controls the transport of low-density lipoprotein (LDL)-derived cholesterol from a lysosome to the site of esterification. It functions as an organizer of a number of critical proteins involved in attachment, migration, and cell signaling. Mutations in this gene causes a dominant, pulverulent cataract.
