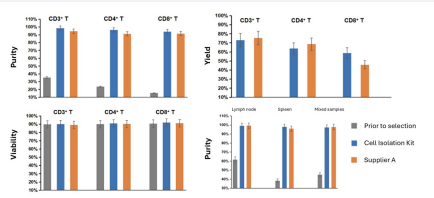
Mouse CD4+ T Cell Isolation Kit

Catalog # KA7574 Size 1 Kit

Applications



Isolation

Target cells obtained through negative selection using the Cell Isolation Kit exhibited high purity and yield, with cell viability remaining largely unaffected. In addition, the kit demonstrated compatibility with lymph node, spleen, and mixed tissue samples.

Specification

Product Description	Mouse CD4+ T Cell Isolation Kit is designed to isolate CD4+ T cells from single-cell suspensions of mouse spleen, lymph nodes, and other tissues by the negative selection method.
Suitable Sample	Enriched T cells or Splenocytes
Cell Type	T Cells
Product Type	CD4+ T Cell Isolation
Particle Core	Magnetic beads
Antibody Conjugation	Anti-mouse CD4 monoclonal antibodies
Capacity	Up to $1x10^9$ / splenocytes
Reactivity	Mouse
Form	Liquid
Regulatory Status	For research use only (RUO)
Storage Instruction	Store at 4°C. Do not freeze.
