Rabbit Anti-Dog IgG (H&L) secondary antibody (Fluorescein)

Catalog # PAB10535 Size 2 mg

Specification

Product Description	Rabbit anti-dog IgG recognizes dog IgG whole molecule. This secondary antibody was purified using antigen affinity chromatography. The antibody is conjugated with Fluorescein.
Immunogen	Dog IgG whole molecule
Host	Rabbit
Reactivity	Dog
Form	Lyophilized
Conjugation	FITC
Purification	This product was prepared from monospecific antiserum by immunoaffinity chromatography, followed by solid phase adsorption(s) to remove any unwanted reactivities.
Conjugation Note	2.4 moles DTAF per mole of rabbit IgG
Recommend Usage	The optimal working dilution should be determined by the end user.
Storage Buffer	Lyophilized from 10 mM KH_2PO_4, 150 mM NaCl, pH 7.2 (0.01% thimerosal)
Storage Instruction	Store at 4°C on dry atmosphere. After reconstitution with deionized water, store at -20°C or lower. Aliquot to avoid repeated freezing and thawing.
Note	This product contains thimerosal: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Applications

- Immunofluorescence
- Flow Cytometry
