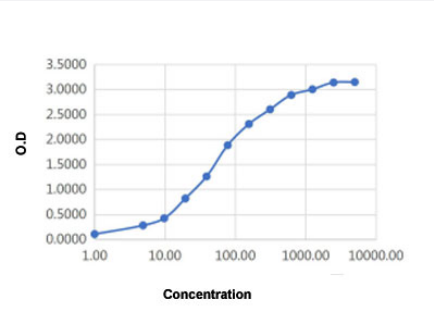
SARS-CoV-2 RecomAb™

SARS-CoV-2 N recombinant human antibody, clone BN9

Catalog # RAB01033 Size 100 ug

Applications



Enzyme-linked Immunoabsorbent Assay

The indirect ELISA analysis was coated by SARS-CoV-2 N protein, 100 uL/cell at 5 ug/mL, was performed by loading 100 uL per well of the SARS-CoV-2 N recombinant human antibody, clone BN9 (Cat # RAB01033) at various concentrations.

Specification

Product Description	Human recombinant monoclonal antibody raised against SARS-CoV-2 N.
Antibody Species	Human
Source / Expression System	293
Immunogen	Original antibody is raised against Recombinant protein corresponding to SARS-CoV-2 N.
Reactivity	SARS-CoV-2
Specificity	Binding to N-terminal of SARS-CoV-2 N protein. Do not react with the C-terminal fragment of SARS-CoV-2 N.
Form	Liquid
Preparation Method	Mammalian cell (HEK293) expression system
Purification	Protein A purification
Purity	>= 95% by SDS-PAGE

Copyright © 2023 Abnova Corporation. All Rights Reserved.

Isotype	IgG1
Recommend Usage	ELISA The optimal working dilution should be determined by the end user.
Storage Buffer	In PBS.
Storage Instruction	Store at 4°C for short term. For long term storage store at -20°C. Aliquot to avoid repeated freezing and thawing.

Applications

- Enzyme-linked Immunoabsorbent Assay

  The indirect ELISA analysis was coated by SARS-CoV-2 N protein, 100 uL/cell at 5 ug/mL, was performed by loading 100 uL per well of the SARS-CoV-2 N recombinant human antibody, clone BN9 (Cat # RAB01033) at various concentrations.
