

Annexin V-APC/PI Apoptosis Kit

Catalog # KA3807 Size 1 Kit

Applications

Result Data

Result Data

□

Upper: Jurkat cell stained with Annexin V-APC + PI
Lower: Camptothecin treated Jurkat cell stained with Annexin V-APC + PI

Specification	
Product Description	Annexin V-APC/PI Apoptosis Kit is used for apoptosis detection.
Suitable Sample	Cell
Detection Method	Fluorimetric
Regulation Status	For research use only (RUO)
Storage Instruction	Store the kit at 4°C.
Note	Result Data Result Data Upper: Jurkat cell stained with Annexin V-APC + PI Lower: Camptothecin treated Jurkat cell stained with Annexin V-APC + PI

Applications

- Functional Study
- Flow Cytometry

Publication Reference

- [CLEC3B protects H9c2 cardiomyocytes from apoptosis caused by hypoxia via the PI3K/Akt pathway.](#)

Fenghua Lv, Zhuo Wang, Yanli Huang, Aoyang Si, Yulei Chen.

Brazilian Journal of Medical and Biological Research 2020 Jul; 53(9):e9693.

Application: Flow Cyt, Rat, H9c2 cardiomyocytes

- [Survivin is a prognostic indicator in glioblastoma and may be a target of microRNA-218.](#)

Tong X, Yang P, Wang K, Liu Y, Liu X, Shan X, Huang R, Zhang K, Wang J.

Oncology Letters 2019 Jul; 18(1):359.

Application: Flow Cyt, Human, LN229 cells
