

Protein Biotinylation Kit

Catalog # KA6931

Size 1 Kit

Specification

Product Description	Protein Biotinylation Kit is optimized for the preparation of biotin-labeled IgG for enzyme immunoassay (EIA). This kit uses biotin succinimidyl ester that reacts with the amino groups of IgG and other biomolecules.
Suitable Sample	Monoclonal antibody, Polyclonal antibody, Proteins
Regulation Status	For research use only (RUO)
Storage Instruction	Store Biotin SE (Component A) at -20°C, and avoid from light and moisture. Store other components at 4°C, and Reaction Buffer (Component B) avoid from light.
Note	For optimal labeling efficiency, the final protein concentration range of 2-10 mg/mL is recommended.

Applications

- Conjugation
