CDKN2A (phospho S152) polyclonal antibody

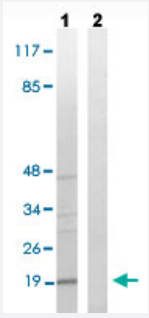

Catalog # PAB29585 Size 100 uL

Applications

Immunohistochemistry (Formalin/PFA-fixed paraffin-embedded sections)

Immunohistochemical staining (Formalin-fixed paraffin-embedded sections) of human breast carcinoma tissue with CDKN2A (phospho S152) polyclonal antibody (Cat # PAB29585) under 1:50-1:100 dilution (A) or treated with synthesized peptide (B).

Western Blot (Cell lysate)

Western blot analysis of Lane 1: EPO (20 U/mL, 15 mins) treated HeLa cells, Lane 2: Synthesized peptide treated HeLa cells with CDKN2A (phospho S152) polyclonal antibody (Cat # PAB29585) at 1:500-1:3000 dilution.

Specification

Product Description	Rabbit polyclonal antibody raised against synthetic phosphopeptide of human CDKN2A.

Copyright © 2023 Abnova Corporation. All Rights Reserved.

Immunogen	A synthetic phosphopeptide (conjugated with KLH) corresponding to residues surrounding S152 of human CDKN2A.
Host	Rabbit
Theoretical MW (kDa)	20
Reactivity	Human
Specificity	CDKN2A (phospho S152) polyclonal antibody detects endogenous levels of human CDKN2A only when phosphorylated at serine 152.
Form	Liquid
Purification	Affinity chromatography
Isotype	IgG
Recommend Usage	Immunohistochemistry (Formalin/PFA-fixed paraffin-embedded sections) (1:50-1:100) Western Blot (1:500-1:3000) The optimal working dilution should be determined by the end user.
Storage Buffer	In PBS (without Mg^{2+} and Ca^{2+}), 150 mM NaCl, pH 7.4 (50% glycerol, 0.02% sodium azide)
Storage Instruction	Store at -20°C. Aliquot to avoid repeated freezing and thawing.
Note	This product contains sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Applications

- Immunohistochemistry (Formalin/PFA-fixed paraffin-embedded sections)

  Immunohistochemical staining (Formalin-fixed paraffin-embedded sections) of human breast carcinoma tissue with CDKN2A (phospho S152) polyclonal antibody (Cat # PAB29585) under 1:50-1:100 dilution (A) or treated with synthesized peptide (B).

- Western Blot (Cell lysate)

  Western blot analysis of Lane 1: EPO (20 U/mL, 15 mins) treated HeLa cells, Lane 2: Synthesized peptide treated HeLa cells with CDKN2A (phospho S152) polyclonal antibody (Cat # PAB29585) at 1:500-1:3000 dilution.

Gene Info — CDKN2A

Entrez GeneID	1029
Protein Accession#	P42771

Gene Name	CDKN2A
Gene Alias	ARF, CDK4I, CDKN2, CMM2, INK4, INK4a, MLM, MTS1, TP16, p14, p14ARF, p16, p16INK4, p16INK4a, p19
Gene Description	cyclin-dependent kinase inhibitor 2A (melanoma, p16, inhibits CDK4)
Omim ID	151623 155601 155755 600160 606719
Gene Ontology	Hyperlink
Gene Summary	This gene generates several transcript variants which differ in their first exons. At least three alternatively spliced variants encoding distinct proteins have been reported, two of which encode structurally related isoforms known to function as inhibitors of CDK4 kinase. The remaining transcript includes an alternate first exon located 20 Kb upstream of the remainder of the gene; this transcript contains an alternate open reading frame (ARF) that specifies a protein which is structurally unrelated to the products of the other variants. This ARF product functions as a stabilizer of the tumor suppressor protein p53 as it can interact with, and sequester, MDM1, a protein responsible for the degradation of p53. In spite of the structural and functional differences, the CDK inhibitor isoforms and the ARF product encoded by this gene, through the regulatory roles of CDK4 and p53 in cell cycle G1 progression, share a common functionality in cell cycle G1 control. This gene is frequently mutated or deleted in a wide variety of tumors, and is known to be an important tumor suppressor gene. [provided by RefSeq
