RecomAb™ Sm Size

TP53 (Phospho S6) recombinant monoclonal antibody

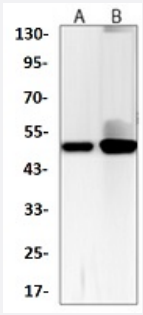

Catalog # RAB09242 Size 50 uL

Applications

Immunohistochemistry (Formalin/PFA-fixed paraffin-embedded sections)

Immunohistochemical analysis of human tonsil formalin fixed paraffin embedded tissue section using TP53 (Phospho S6) recombinant monoclonal antibody (Cat # RAB09242). The section was pre-treated using heat mediated antigen retrieval with sodium citrate buffer (pH 6.126). The section was then incubated with the antibody at room temperature and detected using an HRP conjugated compact polymer system. DAB was used as the chromogen. The section was then counterstained with haematoxylin and mounted with DPX.

Western Blot (Cell lysate)

Western blot analysis of A549 (A), MCF7 (B) whole cell lysates with TP53 (Phospho S6) recombinant monoclonal antibody (Cat # RAB09242).

Specification

Product Description	Rabbit recombinant monoclonal antibody raised against human TP53.
Antibody Species	Rabbit
Immunogen	Original antibody is raised against a synthetic phosphopeptide corresponding to residues surrounding Ser6 of human TP53.
Theoretical MW (kDa)	53

Copyright © 2023 Abnova Corporation. All Rights Reserved.

Reactivity	Human
Specificity	Recognizes endogenous levels of p53 (pS6) protein.
Form	Liquid
Preparation Method	Mammalian cell (HEK293) expression system
Purification	Immunogen affinity chromatography
Isotype	IgG
Recommend Usage	Immunohistochemistry (1:50-1:100) Immunoprecipitation (1:10-1:50) Western Blot (1:500-1:1000)
Storage Buffer	In 50mM Tris-Glycine, pH 7.4 (0.15M NaCl, 50% Glycerol, 0.01% Sodium azide and 0.05% BSA)
Storage Instruction	Store at 4°C short term. Aliquot and store at -20°C long term. Avoid freeze-thaw cycles.
Note	This product contains sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which shoul d be handled by trained staff only.

Applications

- Immunohistochemistry (Formalin/PFA-fixed paraffin-embedded sections)

  Immunohistochemical analysis of human tonsil formalin fixed paraffin embedded tissue section using TP53 (Phospho S6) recombinant monoclonal antibody (Cat # RAB09242). The section was pre-treated using heat mediated antigen retrieval with sodium citrate buffer (pH 6.126). The section was then incubated with the antibody at room temperature and detected using an HRP conjugated compact polymer system. DAB was used as the chromogen. The section was then counterstained with haematoxylin and mounted with DPX.

- Western Blot (Cell lysate)

  Western blot analysis of A549 (A), MCF7 (B) whole cell lysates with TP53 (Phospho S6) recombinant monoclonal antibody (Cat # RAB09242).

Gene Info — TP53

Entrez GeneID	7157
Protein Accession#	P04637
Gene Name	TP53

Gene Alias	FLJ92943, LFS1, TRP53, p53
Gene Description	tumor protein p53
Omim ID	114480 114500 114550 151623 161550 191170 202300 260350
Gene Ontology	Hyperlink
Gene Summary	This gene encodes tumor protein p53, which responds to diverse cellular stresses to regulate target genes that induce cell cycle arrest, apoptosis, senescence, DNA repair, or changes in metabolism. p53 protein is expressed at low level in normal cells and at a high level in a variety of transformed cell lines, where it's believed to contribute to transformation and malignancy. p53 is a DNA-binding protein containing transcription activation, DNA-binding, and oligomerization domains. It is postulated to bind to a p53-binding site and activate expression of downstream genes that inhibit growth and/or invasion, and thus function as a tumor suppressor. Mutants of p53 that frequently occur in a number of different human cancers fail to bind the consensus DNA binding site, and hence cause the loss of tumor suppressor activity. Alterations of this gene occur not only as somatic mutations in human malignancies, but also as germline mutations in some cancer-prone families with Li-Fraumeni syndrome. Multiple p53 variants due to alternative promoters and multiple alternative splicing have been found. These variants encode distinct isoforms, which can regulate p53 transcriptional activity. [provided by RefSeq
Other Designations	p53 antigen|p53 transformation suppressor|p53 tumor suppressor|phosphoprotein p53|transformation-related protein 53
