Human HER2 Overexpression CT26 Cell Line

Catalog # U1410 Size

Applications

Flow Cytometry

Recombinant hHER2/CT26 stably expressing HER2.

Specification

Product Description	CT26 cell line expressing human HER2.
Package	>1x10^6 per vial in 1 mL
Transfected Cell Line	CT26
Immunogen	HER2
Host	Mouse
Reactivity	Mouse
Form	Liquid
Recommend Usage	Flow Cytometry

Copyright © 2023 Abnova Corporation. All Rights Reserved.

Growth Properties	Adherent
Selection Marker	puromycin
Culture Medium	RPMI-1640 + 10%FBS + 2 ug/mL puromycin
Storage Buffer	90% FBS+10% DMSO
Storage Instruction	Store in liquid nitrogen immediately upon receipt. Aliquot to avoid repeated freezing and thawing.
Note	FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC PROCEDURES OR THERAPEUTIC APPLICATIONS.

Applications

- Flow Cytometry

  Recombinant hHER2/CT26 stably expressing HER2.

Gene Info — ERBB2

Entrez GeneID	2064
Protein Accession#	P04626
Gene Name	ERBB2
Gene Alias	CD340, HER-2, HER-2/neu, HER2, NEU, NGL, TKR1
Gene Description	v-erb-b2 erythroblastic leukemia viral oncogene homolog 2, neuro/glioblastoma derived oncogene homolog (avian)
Omim ID	137215 137800 164870 211980
Gene Ontology	Hyperlink
Gene Summary	This gene encodes a member of the epidermal growth factor (EGF) receptor family of receptor tyrosine kinases. This protein has no ligand binding domain of its own and therefore cannot bind growth factors. However, it does bind tightly to other ligand-bound EGF receptor family members to form a heterodimer, stabilizing ligand binding and enhancing kinase-mediated activation of downstream signalling pathways, such as those involving mitogen-activated protein kinase and phosphatidylinositol-3 kinase. Allelic variations at amino acid positions 654 and 655 of isoform a (positions 624 and 625 of isoform b) have been reported, with the most common allele, Ile654/Ile655, shown here. Amplification and/or overexpression of this gene has been reported in numerous cancers, including breast and ovarian tumors. Alternative splicing results in several additional transcript variants, some encoding different isoforms and others that have not been fully characterized. [provided by RefSeq
