Apoptosis Phospho-Specific Array

Catalog # AA0015 Size 1 Kit (2 Samples)

Specification

Product Description	Apoptosis Phospho-Specific Array includes 247 highly specific antibodies related to apoptosis and cell death. The array is designed for protein phosphorylation profiling and screening in cell and tissue samples. Each package contains two identical array slides for analyzing two samples, such as an unt reated sample and a treatment sample.
Substrate	The arrays are printed on standard-size coated glass microscope slides and can be scanned on all microarray scanners that are compatible with 76 x 25 x 1 mm (3 in. x 1 in. x 1mm) slides.
Suitable Sample	Cultured Cells, Frozen Tissue, FFPE Tissue, Serum
Detection Method	Fluorometric
GAL file	GenePix Array List File Download
Storage Instruction	Store at 4°C.
Note	This product must be accompanied with Antibody Array Detection Kit (AA0135) for use.

Applications

- Protein Profiling
