AAMP rabbit monoclonal antibody

Catalog # H00000014-K Size 100 ug x up to 3

Specification

Product Description	Rabbit monoclonal antibody raised against a human AAMP peptide using ARM Technology.
Immunogen	A synthetic peptide of human AAMP is used for rabbit immunization. Customer or Abnova will decide on the preferred peptide sequence.
Host	Rabbit
Library Construction	Non-fusion antibody library from rabbit spleen (ARM Technology).
Expression	Overexpression vector and transfection into 293H cell line.
Reactivity	Human
Purification	Protein A
Isotype	IgG
Quality Control Testing	Antibody reactive against human AAMP peptide by ELISA and mammalian transfected lysate by We stern Blot.
Storage Buffer	In 1x PBS, pH 7.4
Storage Instruction	Store at -20°C or lower. Aliquot to avoid repeated freezing and thawing.
Deliverable	Up to three rabbit IgG clones of 100 ug each will be delivered to customer.
Note	1. Customer may provide cell or tissue lysate for antibody screening. 2. Rabbit monoclonal antibody generated by ARM technology is amenable to antibody engineering in cluding $F(ab)_2$, IgG, scFv and different Fc and non-Fc conjugates per customer request.

Applications

- ELISA

Gene Info — AAMP

Entrez GeneID	14
GeneBank Accession#	AAMP
Gene Name	AAMP
Gene Alias	-
Gene Description	angio-associated, migratory cell protein
Omim ID	603488
Gene Ontology	Hyperlink
Gene Summary	The gene product is an immunoglobulin-type protein. It is found to be expressed strongly in endoth elial cells, cytotrophoblasts, and poorly differentiated colon adenocarcinoma cells found in lympha tics. The protein contains a heparin-binding domain and mediates heparin-sensitive cell adhesion . [provided by RefSeq
Other Designations	-
