2 x HotTaq PCR Mix with $MgCl_2$

Catalog # D0017 Size 1 Tub

Specification

Product Description	HotTaq PCR mix is a prepared solution containing everything needed for a successful PCR reaction except specific primers and DNA templates. The mix includes high quality recombinant Taq DNA pol ymerase, and nucleotides in a specifically optimized buffer formulation. For reaction set-up add the P CR Mix (25 ul) to the primers, template and water (is provided in the set; total volume of 50 ul). PCR Mix is provided with $MgCl_2$ in the solution.
Quality Control Testing	Free of detectable, non-specific nucleases.
Storage Instruction	Store at -20°C. Guaranteed stable for 6 months when properly stored.
Note	MOQ 200 EUR

Applications

- Polymerase Chain Reaction
