NOS2 monoclonal antibody, clone K13-A

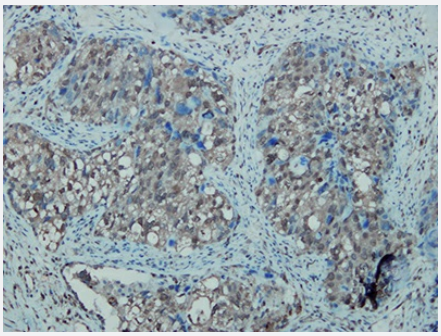

Catalog # MAB23253 Size 7 mL

Applications

Immunohistochemistry (Formalin/PFA-fixed paraffin-embedded sections)

Immunohistochemical staining (Formalin-fixed paraffin-embedded sections) of human liver tissue with NOS2 monoclonal antibody, clone K13-A (Cat # MAB23253).

Immunohistochemistry (Formalin/PFA-fixed paraffin-embedded sections)

Immunohistochemical staining (Formalin-fixed paraffin-embedded sections) of human lung adenocarcinoma tissue with NOS2 monoclonal antibody, clone K13-A (Cat # MAB23253).

Specification

Product Description	Rabbit monoclonal antibody raised against synthetic peptide of human NOS2.
Immunogen	A synthetic peptide corresponding to human NOS2.
Host	Rabbit
Reactivity	Human
Form	Liquid
Purification	Immunoaffinity purification

Copyright © 2023 Abnova Corporation. All Rights Reserved.

Recommend Usage	Immunohistochemistry (Formalin/PFA-fixed paraffin-embedded sections) (1:200) The optimal working dilution should be determined by the end user.
Storage Buffer	In 20 mM Tris-HCl, pH 8.0
Storage Instruction	Store at 4°C. Do not freeze.
Note	This product contains sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which shoul d be handled by trained staff only.

Applications

- Immunohistochemistry (Formalin/PFA-fixed paraffin-embedded sections)

  Immunohistochemical staining (Formalin-fixed paraffin-embedded sections) of human liver tissue with NOS2 monoclonal antibody, clone K13-A (Cat # MAB23253).

- Immunohistochemistry (Formalin/PFA-fixed paraffin-embedded sections)

  Immunohistochemical staining (Formalin-fixed paraffin-embedded sections) of human lung adenocarcinoma tissue with NOS2 monoclonal antibody, clone K13-A (Cat # MAB23253).

Gene Info — NOS2

Entrez GeneID	4843
Protein Accession#	P35228
Gene Name	NOS2
Gene Alias	HEP-NOS, INOS, NOS, NOS2A
Gene Description	nitric oxide synthase 2, inducible
Omim ID	145500 163730 248310 611162
Gene Ontology	Hyperlink
Gene Summary	Nitric oxide is a reactive free radical which acts as a biologic mediator in several processes, inclu ding neurotransmission and antimicrobial and antitumoral activities. This gene encodes a nitric ox ide synthase which is expressed in liver and is inducible by a combination of lipopolysaccharide a nd certain cytokines. Three related pseudogenes are located within the Smith-Magenis syndrome region on chromosome 17. [provided by RefSeq
Other Designations	NOS, type II|nitric oxide synthase 2A|nitric oxide synthase 2A (inducible, hepatocytes)|nitric oxide synthase, macrophage
