RecomAb™

Tnfsf11 recombinant monoclonal antibody, clone IK22-5

Catalog # RAB03777 Size 200 ug

Specification

Product Description	Rabbit recombinant monoclonal antibody raised against murine RANKL-transfected baby hamster kidney cells.
Antibody Species	Rabbit
Immunogen	Original antibody is raised against recombinant protein corresponding to murine RANKL-transfected baby hamster kidney cells
Reactivity	Mouse
Form	Liquid
Conjugation	Unconjugated
Preparation Method	Mammalian cell (HEK293) expression system
Concentration	batch dependent
Isotype	IgG
Recommend Usage	Flow cytometry Immunohistochemistry Neutralization Assay The optimal working dilution should be determined by the end user.
Storage Buffer	In PBS with 0.02% Proclin 300
Storage Instruction	Store at 4°C for 3 months. For long term storage store at -20°C. Aliquot to avoid repeated freezing and thawing.
Note	For research use only.

Applications

- Immunohistochemistry

- Flow Cytometry
- Neutralization

Gene Info — Tnfsf11

Entrez GeneID	21943
Protein Accession#	O35235
Gene Name	Tnfsf11
Gene Alias	Ly109l, ODF, OPG, OPGL, RANKL, Trance
Gene Description	tumor necrosis factor (ligand) superfamily, member 11
Gene Ontology	Hyperlink
Gene Summary	O
Other Designations	OPG ligand|osteoclast differentiation factor|osteoprotegerin ligand|receptor activator of NF-kappa B ligand|tumor necrosis factor-related activation-induced cytokine
